

Yale Quartus Espag Handle

The ultimate window handle solution from one of the UK's most recognisable hardware brands

The Yale Quartus Espag handle offers homeowners the ultimate solution with its aesthetically pleasing design and user-friendly functionality, making it the ideal choice for aluminium and uPVC windows.

Available in inline and offset variants as well as a wide range of finishes, this handle has been designed, developed and tested in the UK to Yale's precise standards and high-performance security.

Featuring the push to unlatch Yale branded mechanism, the handle offers the best in design and function. The mechanism has key operated locking and deadlocking for added security. A non-locking push to unlatch version with black, white or green buttons for egress applications are available.
