

Retractable Espagnolette

A secure solution for flush fit timber windows

This high performance security locking system is durable and easy to fit.

The espagnolette features up to four high security hooks, depending on the size selected. The hooks project 17mm in the locked position and retract fully in the open position, which is ideal for windows with minimal air gaps.

With a smooth closing action and secure locking design, the Retractable Espagnolette will easily meet the requirements of PAS 24:2016 as a critical component. It also has an attractive Supercoat 500 silver finish which provides excellent corrosion protection.

The quality build and robust steel keeps combine to ensure a long reliable life. The steel keeps have a night vent position.

Key Product Features

- 10 Year Guarantee
- Meets PAS 24:2016 requirements
- Secured by Design Accredited
- Supercoat 500 silver corrosion resistant finish
- Fully retractable hooks
- Low handle height options are available
- Steel keeps are available with night vent position

Technical Information

Technical Data:

- Backsets: 25mm and 30mm
(20mm and 22mm backsets available on request)
- Sizes from 200mm to 1340mm
- Fits a 16mm Eurogroove
- The hooks project 17mm in the locked position
- The hooks are operated by a standard espagnolette handle with a 7mm square spindle drive and fixing holes at 43mm centres

Testing & Accreditation:

- PAS 24:2016
- Endurance tested over a 30,000 duty cycle
