

Victorian Style Urn Door Knockers

MECHANICAL
GUARANTEE
5
YEARS

- Available in brass, aluminium or Nanocoast finishes
- Available with or without a viewer
- Colour co-ordinated fixing nuts
- Nylon fixing bolts
- Hidden fix available

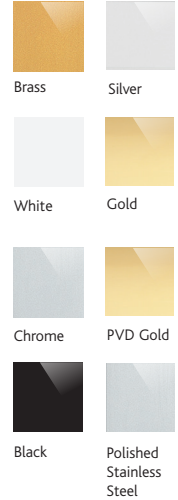

A traditional Victorian design door knocker.

All supplied with colour co-ordinated fixing nuts and washers, a quality addition to any door. Supplied with nylon bolts which in addition to easy cutting and no rust, stops condensation travelling from outside. Salt spray tested to ASTM B117 for 480 hours.

Available with preparation for a viewer if required. Door Viewer sold separately.

Manufactured from Brass, Aluminium or Nanocoast dependant upon the surface protection required. The Brass and Aluminium knockers come with a 5 year guarantee, whereas the Nanocoast has a 10 year surface guarantee.

The brass variant is available with a hidden fix feature. This eliminates the requirement to accurately drill fixing holes. Simply screw the 'hidden fix' back plate to the door and secure the knocker by pressing it over the back plate.

Technical Information:

- Length: 160mm
- Width: 72mm
- Baseplate height: 12mm
- Fixing centres: 100mm
- Viewer position: 40mm below top fixing screw centre
- Viewer hole: 12mm

Door Viewers & Extensions

This quality viewer is constructed from a solid brass or aluminium body and three glass lenses to give crystal clear performance for many years.

The viewer is available in a choice of colour finishes to co-ordinate with our range of door knockers.

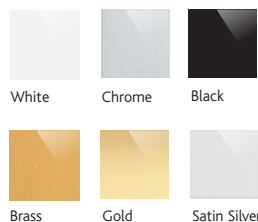

Extends between 35mm and 55mm to fit most door panels. 10mm and 20mm extension pieces are available offering further extension as required.

Available in white and black powder coat, chrome plated and brass to suit our 6" Brass Victorian Urn Knockers and gold and silver anodised to suit our 6" Aluminium Urn Knockers.

Technical Information:

- Length: 35mm – 55mm
- Barrel diameter: 12mm
- Viewing angle 160°
