

ISEO Profile Cylinders

Anti-Bump or Standard Versions

- Brass or nickel plated finish
- 5 pin including 4 anti-pick pins
- 3 keys per cylinder

Manufactured in Europe, the ISEO cylinder has 5 pins, 4 of which are anti-pick for added security. The cylinder has also been tested to BS EN 1303:2005 achieving Grade 4 classification.

ISEO cylinders are available with brass or nickel plated finish. All sizes of the ISEO cylinder are available as key to differ, keyed alike or keyed alike in pairs.

- Key to differ: each cylinder has a different key.
- Keyed alike: each keyed alike cylinder uses the same key.
- Keyed alike pairs: two cylinders supplied with the same key. Ideal for double doors. Each pair has a different key.
- Knob operated: key is used on the external face, on the inside, and a knob is used to turn the cylinder.

All of the ISEO cylinders are supplied with 1 x M5 fixing bolt and 3 x keys. A UK standard key blank is available at all key cutting facilities.

F6 Extra Anti-Bump Kite Marked Cylinder

- 6 Pin Cylinder
- Bump Resistant
- Pick Resistant
- Drill Resistant
- Brass or nickel plated finish
- 3 keys supplied per cylinder
- TS007 1 star rating
