- Telescopic sleeve aids fitting
- External flap opens to 180°
- Fully sealed backplate
- Fully sealed letterplate flap
- Brush strip fitted for additional insulation
- Integral sound dampening bumpers fitted
- Supplied with fixing bolts and compression gasket

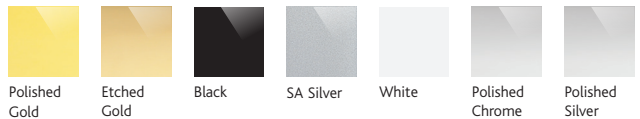

The 10" Post Port Letterplate has been ergonomically designed with a curved edge to improve user comfort. The extruded aluminium flap achieves 180° opening, which eliminates excessive leverage on the pivots to give the letterplate greater durability and increased functionality.

The letterplate is available in two sizes, to suit door thicknesses 20mm – 40mm (Size 1) and also to suit door thicknesses 40mm – 80mm (Size 2).

Sleeve aperture: 252mm x 50mm.

Testing:

- Water tightness test: BS 13724:2013. Results: No leakage at 200 PA Air Pressure or below in accordance with BS5368-3 1978 spray method 2 water spray
- Flap opening test: 15,000 exceeded. Resisted forces of between 80-100 Newtons after cycling
- Durability test: exposed to neutral salt spray BS EN1670. No corrosion of flap, which worked with limits of force specified in test
