■ Fixings available for PVCu and Composite door

A sophisticated stainless steel fixed central knob that suites with Trojan's stainless steel hardware collection.

The Elite Central knob is manufactured from high grade austenitic 316 stainless steel giving excellent corrosion resistance in excess of 1,000 hours based on BS EN 1670.

We recommend using this in conjunction with a key wind up lock, such as the FUHR 855.

Trojan Elite Escutcheon Plate

The sophisticated oval design is ideal for using in conjunction with either the Elite Pull handle or Elite Central Knob.

The Escutcheon consists of an SS201 inner fixing plate complete with fixing screws and a austenitic 316 stainless steel cover plate to conceal the fixing points.
