

Sparta

Stainless Steel Door Handles

- Standard and long backplates
- 92 and 62/92mm PZ centres
- Suitable for door thicknesses 44mm – 70mm
- Supplied with spindle and screws finished to match backplate
- Reversible handing

The Sparta stainless steel range is manufactured in 304 stainless steel giving ultimate corrosion resistance with an impressive 25 year guarantee on all finishes.

A combi range is available to special order for the stainless steel range as follows:

- Elite: Stainless steel external and internal
- Combi: Stainless steel external and zinc internal handle

A patented spring cassette is included as standard which eliminates handle drooping.

Technical Information:

- 304 stainless steel levers and backplate
- Spindle: 8mm² x 125mm
- Screws: 2 x M5 x 75mm, 2 x M5 x 85mm
- 2 x spring cassette supplied
- Corrosion tested in excess of 1000 hours based on BS EN 1670
- Abusive load test to BS 6462

Application:

The lever/lever handle set is for use with lift lever operated multipoint locking mechanisms with a 92mm PZ centre with a choice of short or long backplate to suit the door lock fixing centres.

The lever/moving pad handle set is for use with 'split spindle' multipoint locking mechanisms, such as the FUHR 859 series. The lever/moving pad handles are available to suit 92mm PZ centres with short or long backplates, and an offset variant for 62/92mm PZ centre locks (special spindle sets supplied by the lock manufacturer are required for lever/moving pad handles).
