

Stallion Reverse Action Espagnolette

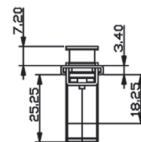

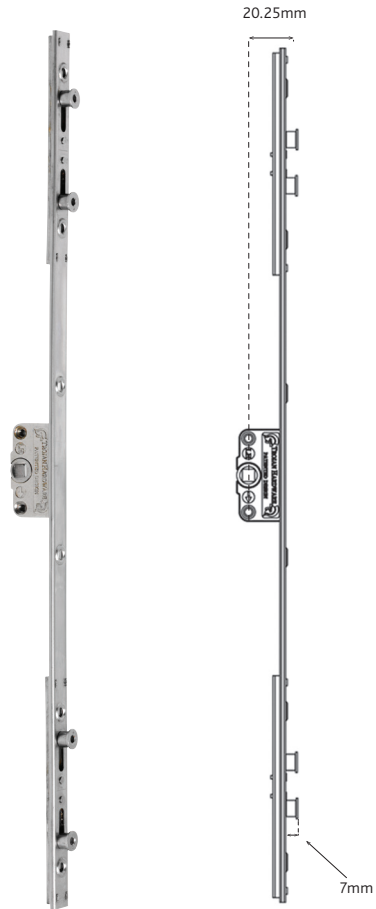

- Stainless Steel for ultimate corrosion resistance
- Simple to fit, no cropping required
- Opposing reverse action cams give high security locking
- Adjustable cams for improved compression
- Strikers for PVCu and timber systems

The Stallion Reverse Action Espagnolette is a simple to fit one piece locking system. The reverse action allows the locking mushroom cams to locate from both directions into the striker to give high security locking.

Manufactured predominantly from stainless steel to offer the highest corrosion resistance, exceeds BS EN 1670 Grade 4, 240 hours salt spray test.

Tested to the enhanced security requirements of PAS 24 on major profiles. Supplied in 20.25mm backset with 7mm high adjustable mushroom cams.

Technical Information:

- Backset: 20.25mm
- Cam height: 7mm
- Cam adjustment: +/- 0.75mm
- Faceplate width: 16mm
- Eurogroove depth:
 - Both standard 12mm and shallow 8mm
- Sash rebate size range: 320mm – 1450mm
- Salt spray tested to BS EN 1670 240hrs
