

# Yale Mantis 4 Door Lock

- 2 x hook and linear bolt units, 2 pre-compression rollers, hook and deadbolt
- 430 grade stainless steel faceplate
- Individual or one piece keeps
- Push-in latch snib feature prevents accidental lockouts

Yale's Mantis 4 door lock offers the best in strength and durability for all types of doors. Designed and manufactured in the UK to suit PVCu, composite and timber style doors its unique hook and linear bolt lock points ensure the ultimate in security. It also works seamlessly with both single and French door applications.

## Auxiliary Units

Unique hook and linear bolt unit and pre-compression rollers are positioned to assist with PAS24 test accreditation.

## Centre Unit

Strengthened centre case offers enhanced security while a push-in latch snib feature helps to prevent accidental lock outs. Featuring a reversible latch and 92mm PZ centre.

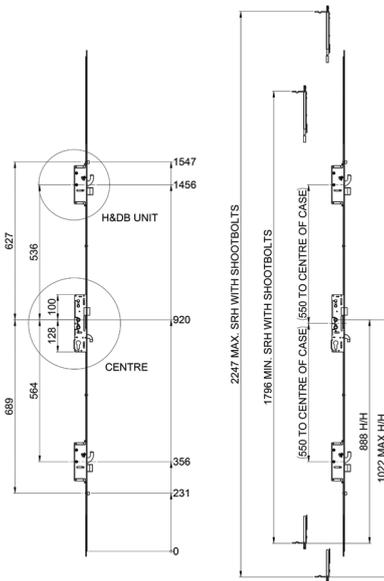

## Keep Options

- A 13mm axis one piece keep allows greater loads during testing.
- One piece and individual keeps are available for PVCu doors
- Zinc end caps
- Screw-in, hardware plastic tidy boxes for improved longevity and more aesthetically pleasing look
- Range includes Hexagon allen key cam options for +/- 2mm adjustment

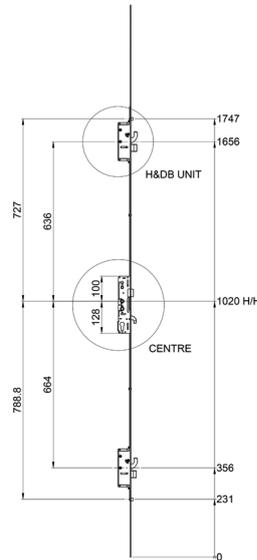

Three piece composite door keeps available

- Adjustable hook and linear bolt keep +/- 2mm adjustment
- Centre keep +/- 2mm adjustment
